

FEATURES

Double duty delicatessen merchandisers are designed to display cold cuts, meat provision, cheeses, salads and provide high volume and large display area.

EXTERIOR

Stainless steel top, white powder coated aluminum finish front and sides and stainless steel back.

INTERIOR

White powder coated aluminum walls and top. Stainless steel bottom.

ADJUSTABLE SHELVEING

Two adjustable heavy-duty full length mezzanine shelves and wire racks for maximum capacity

DOORS

Double pane glass sliding doors on top which provide convenient access and full view. Stainless steel sliding doors on the bottom save aisle space and allow easier access to storage area

LIGHTING

Brilliant shadow free illumination by top mounted lamps and one row of lights under the shelf. All full length fluorescent lamps are protected by safety shields against breakage.

DRAIN

Drain connection in the back of the case according to drawing.

ELECTRICAL

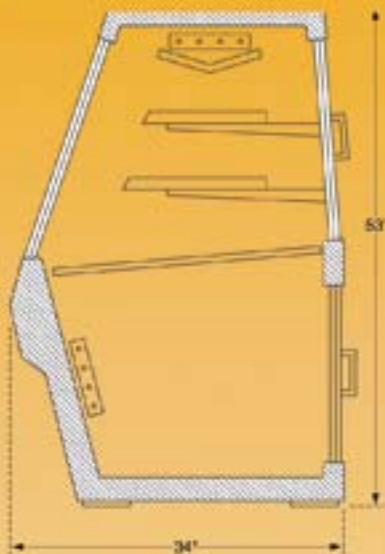

Merchandiser operates on 115 V 60 Hz single phase.

REFRIGERATION

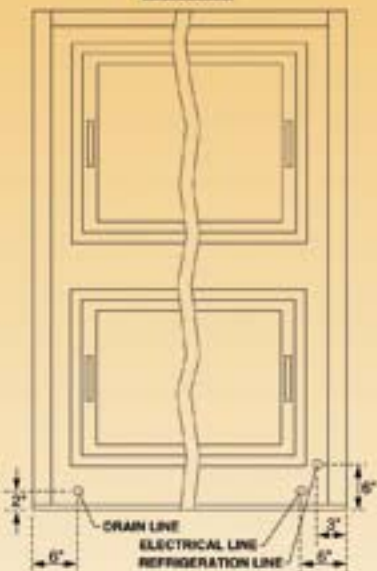

Heavy duty gravity fin-coil system. Lower storage area has separate fin-coil connected in series with top display coil. An expansion valve is provided.

OPTIONAL

Stainless steel exterior; stainless steel interior; pan arrangement; cutting board.

REAR VIEW
